THE APPLICATION IDENTIFIED ABOVE HAS BEEN EXAMINED AND IS ALLOWED FOR ISSUANCE AS A PATENT. **PROSECUTION ON THE MERITS IS CLOSED.** THIS NOTICE OF ALLOWANCE IS NOT A GRANT OF PATENT RIGHTS. THIS APPLICATION IS SUBJECT TO WITHDRAWAL FROM ISSUE AT THE INITIATIVE OF THE OFFICE OR UPON PETITION BY THE APPLICANT. SEE 37 CFR 1.313 AND MPEP 1308.

THE ISSUE FEE AND PUBLICATION FEE (IF REQUIRED) MUST BE PAID WITHIN **THREE MONTHS** FROM THE MAILING DATE OF THIS NOTICE OR THIS APPLICATION SHALL BE REGARDED AS ABANDONED. **THIS STATUTORY PERIOD CANNOT BE EXTENDED.** SEE 35 U.S.C. 151. THE ISSUE FEE DUE INDICATED ABOVE DOES NOT REFLECT A CREDIT FOR ANY PREVIOUSLY PAID ISSUE FEE IN THIS APPLICATION. IF AN ISSUE FEE HAS PREVIOUSLY BEEN PAID IN THIS APPLICATION (AS SHOWN ABOVE), THE RETURN OF PART B OF THIS FORM WILL BE CONSIDERED A REQUEST TO REAPPLY THE PREVIOUSLY PAID ISSUE FEE TOWARD THE ISSUE FEE NOW DUE.

## HOW TO REPLY TO THIS NOTICE:

I. Review the SMALL ENTITY status shown above.

If the SMALL ENTITY is shown as YES, verify your current SMALL ENTITY status:

A. If the status is the same, pay the TOTAL FEE(S) DUE shown above.

B. If the status above is to be removed, check box 5b on Part B - Fee(s) Transmittal and pay the PUBLICATION FEE (if required) and twice the amount of the ISSUE FEE shown above, or

If the SMALL ENTITY is shown as NO:

A. Pay TOTAL FEE(S) DUE shown above, or

B. If applicant claimed SMALL ENTITY status before, or is now claiming SMALL ENTITY status, check box 5a on Part B - Fee(s) Transmittal and pay the PUBLICATION FEE (if required) and 1/2 the ISSUE FEE shown above.

II. PART B - FEE(S) TRANSMITTAL, or its equivalent, must be completed and returned to the United States Patent and Trademark Office (USPTO) with your ISSUE FEE and PUBLICATION FEE (if required). If you are charging the fee(s) to your deposit account, section "4b" of Part B - Fee(s) Transmittal should be completed and an extra copy of the form should be submitted. If an equivalent of Part B is filed, a request to reapply a previously paid issue fee must be clearly made, and delays in processing may occur due to the difficulty in recognizing the paper as an equivalent of Part B.

III. All communications regarding this application must give the application number. Please direct all communications prior to issuance to Mail Stop ISSUE FEE unless advised to the contrary.

**IMPORTANT REMINDER:** Utility patents issuing on applications filed on or after Dec. 12, 1980 may require payment of maintenance fees. It is patentee's responsibility to ensure timely payment of maintenance fees when due.

### DETAILED ACTION

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Dow Rosenfeld on 03/20/2008.

The application has been amended as follows:

For claim 1, change "a configuration message", in line 9, to – the configuration message--. Similarly, change the same way claim 20 line 11.

For claim 5, change "a discovery message", in line 2, to – the discovery message --.

For claim 8, change "one of the IEEE 802.11 standards or a derivative thereof." in line 2, to – the IEEE 802.11 standard.--. Similarly, change the same way claim 18 line 2, claim 26 lines 2-3, claim 34 lines 2-3, claim 42 line 2, claim 55 line 2.

For claim 12, change "a second wireless station", in line 7, to – the second wireless station --. Similarly, change the same way claim 29 line 9.

For claim 36, change "in first a station" in line 1 to –in a first station--.

For claim 36, change "a second wireless" in line 9, to –a second wireless station--.

For claim 36, please add the following after the last word of the claim: --such that the range of reception of the wirelessly transmitted configuration data message is limited--.

For claim 44, change "a configuration request message" in line 12 to – the configuration request message--.

For claim 44, change “a second wireless station” in line 12 to – the second wireless station --.

For claim 44, change “a settable time period” in line 13 to – the settable time period --.

For claim 47, change “a user” in line 4 to – the user --.

For claim 48, change “a configuration data message” in line 3 to – the configuration data message --.

For claim 53 change “a configuration request message” in line 2 to – the configuration request message--.

#### **Reasons for Allowance.**

2. The following is an examiner’s statement of reasons for allowance:

For claims 1, 12, 20, 22, 29, 36, 44,49 the prior art fails to teach by anticipation or combination the below limitations for claim 1 and similar limitations for claims 12, 20, 22, 29, 36, 44,49 :

wirelessly transmitting a discovery message;

waiting for a settable time interval to wirelessly receive a configuration request message from a second wireless station within the settable time interval the configuration request message being wirelessly transmitted by the second wireless station in response to the discovery message being wirelessly received by the second wireless station; and

in the case a configuration request message is received within the settable time interval, generating a configuration data message for the second wireless station including one or more configuration parameters for the second wireless station, and wirelessly

transmitting the configuration data message to the second wireless station,  
such that the second wireless station can be configured  
wherein the transmitting of the configuration message is after waiting for a backoff time interval, and  
wherein the wirelessly transmitting the discovery\_ message includes:  
wirelessly transmitting the discovery message at a first output RF power level  
waiting for a configuration request message;  
in the case that no configuration request message is wirelessly received within a period of time, wirelessly re-transmitting the discovery message at a higher output RF power level;  
and  
repeating such waiting and re-transmitting until either a maximum output RF power level has been reached, or a configuration request message has been wirelessly received,  
such that the range of reception of the wirelessly transmitted configuration data message is limited.

The closest prior art (US 7289631) solves the same problem, limiting the range of reception, however fails to disclose who this is done. Furthermore, further closest prior art (Havarinen et al US 2002/0012433 A1) teaches sending configuration message with configuration parameter so that a second station can be configured. Furthermore, it is known in the art to progressively increase the power of transmitting a message based on reception of a message (Douglas 7,293,088). This is usually done to ensure a signal is reaching a certain station. However, the prior art references fail to teach by anticipating

or in combination : " waiting for a settable time interval to wirelessly receive a configuration request message from a second wireless station within the settable time interval the configuration request message being wirelessly transmitted by the second wireless station in response to the discovery message being wirelessly received by the second wireless station.... wherein the transmitting of the configuration message is after waiting for a backoff time interval, and wherein the wirelessly transmitting the discovery\_ message includes: wirelessly transmitting the discovery message at a first output RF power level waiting for a configuration request message; in the case that no configuration request message is wirelessly received within a period of time, wirelessly re-transmitting the discovery message at a higher output RF power level; and repeating such waiting and re-transmitting until either a maximum output RF power level has been reached, or a configuration request message has been wirelessly received, such that the range of reception of the wirelessly transmitted configuration data message is limited."

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
